

Chalk Mountain has partnered with Eagle Safety Eyewear to offer our employees safety eyewear at a discounted price.

To order your Eagle Safety Eyewear, please visit: [www.eaglesafety.com](http://www.eaglesafety.com), or you can call 877-465-3887 to speak with an Eagle Safety Eyewear team member.

All safety glasses are custom made to order and all glasses comply with ANSI Z-87.2 Safety Standards.

To assist you in your selection process, please find attached:

### Chalk Mountain Services Ordering Procedures

All prescription safety glasses are custom made according to the prescription information provided when you place your order. If your prescription was issued more than two years ago we recommend that you visit your eye care provider to obtain a new prescription.

Employees are to take the Eagle Safety order form to their eye care provider to complete **all prescription information on the order form including patient's PD measurement.**

To view our frame selection, please visit our website at [www.eaglesafety.com](http://www.eaglesafety.com)  
Click on **brands** in the blue bar at the top of the page, select a brand, and then **Click Here For Product Catalog.**

Once you have selected your frame, refer to the Eagle Safety frame list and price sheet in order to see what your cost will be for your safety glasses. Frames are categorized by groups, Value through Group 8. Your price is determined by the group number of your frame and your prescription type (single vision, bifocal, trifocal or progressive). USA Workforce frames are not included on the frame list. See enclosed USA Workforce sheet.

Please include the following information on the Eagle Safety order form:

- Employee name and phone number
- Method of payment. All orders are to be paid in full prior to fabricating your safety glasses. If paying with a credit card complete the employee credit card area of the order form. We accept all major credit cards. If paying with a check or money order please **make payable to Eagle Safety Eyewear**. Mail check and/or money order along with the order form to Eagle Safety at the address above. Do not send cash.
- Frame model number, 1<sup>st</sup> and 2<sup>nd</sup> choice frame color and eye size.
- Lens material. Polycarbonate is recommended and does come with a scratch resistant coating and UV protection.
- Lens type - single vision  
bifocal (line bifocal)  
progressive (no line bifocal)  
trifocal

- Prescription area of the order form *including your PD measurement* is to be completed by your eye doctor or you may send the prescription with your order. If sending the prescription please make sure your PD measurement is included. Your glasses cannot be fabricated without this measurement.
- Check any additional options such as tints, sun lenses (light adjusting), polarized lenses, anti-reflective or ultra hard-coat. See additional options sheet for pricing.
- Side shields (permanent or clip-on)

If ordering a WileyX frame please keep in mind there are prescription parameters and measurements that must be met. If your prescription falls outside of those parameters and measurements we will contact you to have you select a different frame.

Your safety glasses will be delivered within 10 business days from receipt of order.

Postage paid return labels will be sent to each of your sites to use for returns. Please include the packing slip and write a note as to the reason for the return along with your name and phone number.

We recommend having your glasses professionally adjusted by your eye care provider to provide you with the best fit and vision clarity.

All glasses have a one year warranty against manufacturer defects.

Thank you for your business and we look forward to working with you.

Feel free to contact us with any questions.

Marlene Kelley, Administrative Asst.  
PH 877-465-3887 ext. 3356

Patrick Lippy, National Account Manager  
PH 877-465-3887 ext. 3314

- Go to [www.eaglesafety.com](http://www.eaglesafety.com) BRANDS tab on Home Page will give frame style links.
- Frames are catalogued by style, colors, and size. All sizes are given in millimeters (mm.)
- Find the style you like, and select from the available colors. Please remember to give two color choices on the order form, in case of unavailability of first choice.
- One of the important issues is the size of the frame. If you currently wear eyeglasses; choose a safety frame with the same size or within 2mm of your eyeglasses. Frames usually have the eye and bridge size stamped on the inside of the frame. Common places are along the earpiece or across the bridge.

Another option is to use the following sizing tips:

- Example: ONGUARD 322 (style) Antique Bronze (color) 51-19-135 (frame size)

51 (individual lens size)  
19 (bridge size)  
135 (temple or earpiece length)

- Industry standards on lens size 46-49mm ( small ), 50-54mm (medium), 55-60mm (large)
- Industry standards on bridge size 15-18mm (standard),19-22(wide)
- Industry standards on earpiece length 135-140mm (standard), 145-150 (long)
- The other important measurement is your PD (pupillary distance) or the distance in millimeters between your pupils. **Orders received without PD measurement written down will not be processed!** PD measurements can be requested by you the customer through your current optical provider or your eye doctor. Many doctors will include it on your written prescription if you ask.
- The Seg Ht (segment height) is used for those customers wearing a multifocal lens. If none is provided by the customer we will use industry standards of ;  
Bifocal- 3mm below geometric lens center/ Trifocal- on geometric lens center/Progressive – 2mm above geometric lens center

## Your new partner for quality, customized prescription safety eyewear programs.

### A PROGRAM CUSTOMIZED TO FIT YOUR NEEDS

- ▶ Convenient local fitting sites available
- ▶ On-site fittings at your facility – on your schedule
- ▶ Mail order program
- ▶ On-line order tracking at [www.eaglesafety.com](http://www.eaglesafety.com)
- ▶ Flexible monthly billing
- ▶ Quick turnaround
- ▶ Dedicated, knowledgeable Customer Service team
- ▶ Responsive; opticians on hand to answer technical questions

### A WIDE VARIETY OF SPECIALTY EYE SAFETY PRODUCTS AND SERVICES

- ▶ Complete selection of 3M, ArmouRx, Hudson, OnGuard, USA Workforce, Uvex, WileyX & Wolverine safety frames
- ▶ High Performance (HP) anti-fog coatings
- ▶ Respirator inserts (MSA, Scott, 3M, North)
- ▶ Non conductive eyewear
- ▶ Goggles
- ▶ Readers 'cheaters'
- ▶ Anti-fog wipes
- ▶ Face shields
- ▶ Universal side shields

### MODERN IN-HOUSE PRODUCTION LAB

- ▶ Centrally located, 25,000 square foot facility
- ▶ State-of-the-art production and precision lens grinding equipment
- ▶ Well-trained, experienced technicians
- ▶ Multiple production shifts delivering quick turnaround

### See the Eagle difference!
